Professional Summary

MERN Stack Developer with hands-on experience building full-stack web apps using React.js, Node.js, Express.js, and MongoDB. Skilled in designing RESTful APIs, implementing JWT-based auth, managing state with Redux, and deploying apps on Render and Vercel. I write clean, maintainable code and build fast, responsive, reliable applications for real-world use.

Technical Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Redux, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, Firebase, SQL

Tools & Platforms: Git, GitHub, Vercel, Render, Netlify, Cursor, VS Code, Postman

Projects

ProConnect – LinkedIn Clone | *React.js, Node.js, Next.js, Express.js, MongoDB* **November 2025 – January 2026**

- Developed a full-stack social networking platform inspired by LinkedIn, featuring user authentication, posts, likes, comments, profile updates, and user connections.
- Implemented JWT-based authentication, protected routes, and secure session handling to ensure safe user access and robust data protection.
- Built RESTful APIs using Node.js and Express.js to manage user profiles, posts, comments, connection requests, and real-time interactions.
- Utilized Redux for centralized state management, improving scalability and maintaining consistent data flow across the application.
- Designed a responsive, user-friendly interface with React.js to deliver a smooth experience on both desktop and mobile devices.
- Integrated features like Discover People, connection requests, and profile management to increase user engagement and networking outcomes.

WanderLust | *Node.js, Express.js, MongoDB, EJS, Bootstrap, Passport.js, Cloudinary* **March 2026 – April 2026**

- Developed a full-stack property listing web application inspired by Airbnb using Node.js, Express.js, MongoDB, and EJS, enabling users to browse and manage rental properties.
- Implemented secure user authentication and session management with Passport.js and express-session, allowing users to reliably sign up, log in, and maintain active sessions.
- Built RESTful CRUD APIs for property listings so users can create, update, view, and delete their own properties with proper validation and error handling.
- Integrated Cloudinary and Multer to support image upload, storage, and retrieval, allowing users to attach multiple photos to each listing.
- Designed a responsive, user-friendly interface with Bootstrap and EJS templates, improving usability and accessibility across desktop and mobile devices.
- Deployed the application on Render and connected it to MongoDB Atlas, ensuring reliable cloud hosting, database management, and easier scalability for future growth.

Certifications

- **Full Stack Web Development Certificate – Coding Ninjas (2025):** Completed multiple hands-on full-stack web development projects featuring user authentication, RESTful APIs, database integration, responsive UI, and end-to-end deployment.
- **Artificial Intelligence Fundamentals – Coding Ninjas (2025):** Gained a solid understanding of core AI concepts and hands-on experience using AI tools, APIs, and integrations within modern web application projects.

Education

Bachelor of Technology (B.Tech)

Teerthanker Mahaveer University

Full-Time

Moradabad, India
